- a) carbon monoxide;
- b) downed power lines;
- c) hazardous materials (provided that the City's obligation is limited to responding and temporarily containing hazardous materials until a qualified responder arrives; the City is not obligated to remediate, remove, or control hazardous materials, nor is the City responsible for the costs of such remediation, removal, or control);
- d) disaster response;
- e) search and rescue; and
- f) vehicular accidents.

In providing the Services, the City shall use its own vehicles, personnel, and equipment, and the City shall provide all housing and maintenance of such vehicles, personnel, and equipment. The City shall further provide any necessary workers' compensation insurance and other insurance for all personnel, vehicles, and equipment. The Township shall have no obligation, duty, or liability whatsoever with respect to the City's vehicles, personnel, or equipment.

4. Fire District. The Services shall be provided within the geographical limits of the Township that are included within the City's fire protection coverage ("Fire District") during the term of this Agreement. Any area not included within the City's established fire protection coverage is excluded from the Fire District.

5. Activity Reports. The City shall provide the Township with activity reports showing how many runs were conducted each month.

6. Employees. The City's employees shall not be deemed to be employees of the Township, and the Township's employees shall not be deemed employees of the City. Nothing in this Agreement shall be construed to create a contract for employment.

7. City Discretion. The City shall have the discretion to deny or delay provision of Services within the Fire District if the City reasonably determines that insufficient vehicles, equipment, or personnel are available because those resources are engaged elsewhere, or if in the judgment of the City Fire Chief, road conditions or the disablement of vehicles or equipment do not allow the

City to answer the call. The City Fire Chief or the Fire Chief's designee shall determine the quantity and type of fire vehicles, equipment, and personnel used to respond to a call for Services in the Township, in the reasonable, good faith discretion of the Fire Chief or the Fire Chief's designee, based on current accepted standards and practices.

8. Additional Billings to Recipients of Service. The Parties recognize that the fee established above in paragraph 1 may not be sufficient to allow the City to recover all its costs and expenses in delivering fire protection and related services within the Township. Therefore, in addition to the annual service fee, the City has the right to submit claims to available insurance coverage for costs and expenses related to the delivery of fire protection services for structure fires and vehicular accidents occurring within the Township. The City shall not directly bill Township residents or property owners for any portion of such costs not paid by insurance during the term of this Agreement.

The City also has the right to bill residents outside the Fire District for the City's costs and expenses related to any response to personal injury calls but shall not bill Township residents for personal injury calls during the term of this Agreement. The Township shall, at the direction of the City, adopt any ordinance(s) reasonably necessary to authorize the insurance billing permitted under this paragraph within the Township. The City shall also be entitled to receive any restitution ordered by any court of competent jurisdiction related to a fire or personal injury response. The Township shall have no obligation to collect billings on behalf of the City. The City shall not be entitled to place liens on property in the Township to collect such billings, nor shall the Township place liens on property on the City's behalf.

9. Cost Recoveries. Any amounts lawfully recovered by the City from utilities, insurers, contractors, other responsible parties, or through court-ordered restitution in connection with Services provided under this Agreement shall be retained by the City. Such recoveries shall not reduce, offset, or otherwise affect the annual service fee established under Paragraph 1.

10. No Waiver. Nothing herein shall be construed to waive or limit any immunity from, or limitation on, liability available to either Party, whether set forth in the Governmental Tort Liability Act, 1964 PA 170, as amended, or otherwise.

11. No Joint Authority, Venture, or Enterprise. This is an agreement for services. The Parties do not intend to undertake or create, and nothing herein shall be construed as creating, a joint authority, joint venture, or joint enterprise between the Parties outside of their authority to contract for services pursuant to applicable law.

12. No Third-Party Beneficiaries. There are no third-party beneficiaries to this Agreement.

13. Counterparts. This Agreement may be executed in several counterparts, each of which shall be an original and all of which shall constitute one and the same instrument.

14. Severability. If any portion of this Agreement shall be declared unenforceable by any court of competent jurisdiction, the remainder of this Agreement shall remain in full force and be unaffected by the portion which may be declared to be unenforceable.

15. Entire Agreement. This Agreement constitutes the entire agreement between the Parties concerning the matters contained herein. No amendments to this Agreement shall be valid unless in a writing signed by the Parties by their authorized representatives. Effective January 1, 2027, this Agreement shall supersede any prior agreement between the Parties concerning the fire protection services provided under this Agreement.

The Parties have executed this Fire Protection Services Agreement on the date first written above.
